PROGRAM PHILOSOPHY: Davidson Academy’s childcare programs are designed to meet the needs of families. We believe that children are “scientists” who, in the process of inventing ideas and developing hypotheses, develop an understanding of their world. The overarching program goal is to have children become autonomous problem-solvers through interdependent, cooperative learning projects. The freedom to choose activities in a planned environment allows children to be self-directed. “Real-life” opportunities are offered to develop skills of independence and responsibility while caring, nurturing adults provide a safe, homelike atmosphere.

MISSION: Childcare is one of the family resource services offered by Davidson Academy. All children are welcome to attend regardless of school enrollment. The purpose of the service is to provide quality, developmentally appropriate care for rising K4 through eighth-grade.
1. Provide unconditional encouragement and acceptance to build self-esteem and self-confidence.
2. Provide a variety of opportunities to help children discover and develop their intellectual, physical, social, and spiritual gifts and abilities to the fullest.
3. Provide interdependent, cooperative learning experiences to promote teamwork and problem solving skills.
4. Provide opportunities to develop responsible, self-reliant, self-motivated, life-long learners.
5. Increase awareness of the need for courtesy, fairness, dignity and respect for themselves and others.
6. Support and enhance parental understanding of child development needs and practices.
7. Offer real-life activities to develop skills for successful living.

DAVIDSON ACADEMY ENROLLMENT: Davidson Academy admits students without regard to race, creed, and color, national or ethnic origin. All programs are filled on a first-come, first-served basis. If the camp is full, you will be notified that your child(ren) has/have been placed on a waiting list.

12 Seats Available  $200
Get your creative juices flowing. Cut, bend, saw and create with cardboard all week long! In addition to guided creations, students will also work on their own personal projects like a small house, sword, shield, clock, marble run, helmet, labyrinth, an arcade game or whatever their minds can imagine. You’ll plan, design and create whatever you want. We will be using cardboard saws and low-temp hot glue guns during this camp.
